CAREER OBJECTIVE

Motivated Computer Science & Engineering graduate from Daffodil International University (thesis defended; awaiting final certificate) seeking an entry or mid level position where I can apply my skills in software development, web technologies, information security fundamentals, and problem solving to contribute to organizational growth while building a strong professional career in the IT industry.

PROFILE SUMMARY

CSE graduate from Daffodil International University (thesis defended; awaiting certificate; CGPA 3.33 / 4.00) with hands on experience in software development, mobile and web applications, machine learning, and information security fundamentals. Proficient in Python, Flutter, JavaScript, SQL, and modern development tools. Experienced in building academic and research projects involving deep learning, data analysis, and responsive web applications. A quick learner with strong problem solving skills, committed to delivering quality work and growing within a technology driven organization.

SPECIAL QUALIFICATION

Skilled in Python, Flutter, SQL, and AI/ML frameworks with research project experience. Strong in object oriented programming, data structures, and database management. Completed training in Information Security (Great Learning). Analytical, adaptable, and a collaborative team player passionate about software engineering and continuous professional development.

ACADEMIC QUALIFICATION

Exam Title	Concentration / Major	Institute	Result	Pas. Year	Duration
Bachelor of Science (BSc)	Computer Science & Engineering	Daffodil International University (DIU)	CGPA: 3.33 / 4.00 (Thesis Defended; Awaiting Certificate)	2026	4 Years
HSC	Science	Govt. Yasin College, Faridpur	CGPA: 5.00 / 5.00	2021	2 Years
SSC	Science	Faridpur Zilla School	CGPA: 4.67 / 5.00	2018	2 Years

TECHNICAL SKILLS

Programming & Development	- Python, C/C++, Java, JavaScript - Flutter, React, Node.js - HTML, CSS, Responsive Web Design - SQL, MySQL, MongoDB
IT & Security	- Information Security Fundamentals - Git, GitHub (Version Control) - MS Word, Excel & PowerPoint
Data, AI & Design	- Machine Learning & AI Tools - Data Analysis & Visualization - UI/UX Design & Visual Layout (Figma, Canva) - Adobe Photoshop & Illustrator (Basic)
Professional	- Object Oriented Programming - Data Structures & Problem Solving - Team Collaboration & Time Management - Professional Communication

TRAINING SUMMARY

Training Title	Topic	Institute	Location	Year	Duration
Introduction to Information Security	Information Security Fundamentals	Great Learning	Online	2025	1 Month
Basic Etiquette for Better Personality	Professional Communication, Workplace Etiquette	GoEdu	Online	2025	1 Month

PROFESSIONAL QUALIFICATION

Certification	Institute	Location	Duration
Biomedical Data or Specimens Only Research, Basic Course	CITI Program (Collaborative Institutional Training Initiative)	Online	Mar 2026 to Apr 2026
Introduction to Information Security	Great Learning	Online	Mar 2025 to Apr 2025

CAREER AND APPLICATION INFORMATION

Looking For	Entry or Mid Level Job
Available For	Full Time
Preferred District	Dhaka, Faridpur
Expected Salary	Negotiable

PROJECTS & EXPERIENCE

Full Stack Dynamic Portfolio: I built my personal portfolio in Laravel with an admin panel so projects, skills, experience, and contact messages can be updated without touching code. The site is deployed online for recruiters to review. Live:

<https://hasin-portfolio.onrender.com> | GitHub: github.com/Hasin-99/hasin-portfolio

PayKotha Core Banking Wallet: I built a wallet style banking simulation using FastAPI and React. It includes transfers, KYC tiers, OTP checks, double entry ledger records, and audit logs to show how fintech systems are structured. GitHub: github.com/Hasin-99/PayKotha

StudentMove Flutter App: Our team built a Flutter mobile app for Dhaka students who rely on campus transport daily. It shows live bus schedules, route updates, announcements, and in app chat so students know when to leave home or campus. Separate login and dashboards are set up for students, drivers, and admins. GitHub: github.com/Hasin-99/StudentMove_Flutter_App

StudentMove Smart Transport for Dhaka: I worked on a team Laravel platform for smart student transport in Dhaka. My work covered bus tracking, route management, subscription plans, notifications, and admin panels so transport can be monitored from one place.

GitHub: github.com/Tahis-Fzs/StudentMove-Smart-Transport-Solution-for-Dhaka

Early CKD Detection (FYDP): Our final year thesis team developed a Python based system to detect chronic kidney disease early using multiple data types, with explainable AI so results are easier to interpret for clinical review. GitHub:

github.com/Tahis-Fzs/ckd-multimodal-detection

CICIDS2017 Intrusion and Insider Threat Detection: Our team built a Python pipeline to detect network intrusions and insider threats using the CICIDS2017 dataset. The project covers data preprocessing, model training, and evaluation for security analysis workflows.

GitHub: github.com/Tahis-Fzs/cicids2017-intrusion-detection

Retinal OCT Deep Learning Classification: Our team trained deep learning models in Python to classify retinal OCT scans for disease screening. The work focuses on automated image classification to support early eye disease detection. GitHub:

github.com/Tahis-Fzs/retinal-oct-deep-learning

AgroCulture Farmer Marketplace: Our team developed a PHP and MySQL marketplace where farmers can list produce, manage carts, receive reviews, and publish posts on an agro blog. Buyers can browse and order from one web platform. GitHub:

github.com/Tahis-Fzs/agro-culture

OpenGL Maritime Day/Night Simulation: Our team created a C++ OpenGL simulation of a maritime scene with automatic day and night lighting, ocean rendering, a lighthouse, and animated ships. It was built as a graphics and simulation course project. GitHub:

github.com/Tahis-Fzs/opengl-maritime-day-night

Smart Cart IoT Shopping Trolley: Our team developed a smart shopping trolley using ESP32 and RFID so items scan as they enter the cart, with live feedback on an LCD and inventory logging through PHP and MySQL for store demos. GitHub:

github.com/Tahis-Fzs/smart-cart-iot

CodeKotha Bangla Programming Language: Our team designed and built a Bangla programming language compiler in C++17 with Qt. Users can write code in Bangla and run it through a command line or GUI interface, with C code generation behind the scenes.

GitHub: github.com/Hasin-99/CodeKotha

Why So Serious Mail: For our OS lab course, our team built an offline mail client using Bash and Zenity. Messages are stored as files, sending runs as background processes, and the project demonstrates file handling, permissions, and basic system behavior. GitHub:

github.com/Hasin-99/why-so-serious-mail

EXTRA CURRICULAR ACTIVITIES

Participated in Prompt Battle, Prompt Engineering, Algorithm Contest, and Take off Contest organized by DIU Computer & Programming Club (CPC). Represented school and college in debating. Participated in football tournaments at school, college, and university levels. Active in academic and cultural event volunteering. Continuous self learning in software development, IT systems, and information security.

LANGUAGE PROFICIENCY

Language	Reading	Writing	Speaking
English	High	High	Medium
Bangla	High	High	High

PERSONAL DETAILS

Father's Name	Md. Nurul Amin
Mother's Name	Shamima Parvin
Date of Birth	31 December 2002
Gender	Male
Marital Status	Unmarried
Nationality	Bangladeshi
National ID No.	2413921558
Religion	Islam
Blood Group	B+
Permanent Address	31/KA, Doctor Villa, Alauddin Khan Road, North Alipur, Faridpur Sadar, Faridpur 7800
Current Location	YKSG-1, Daffodil Smart City (DSC), Birulia, Savar, Dhaka 1340
